REFUGE works to prevent childhood exposure to violence and abuse through direct therapeutic work with families, supportive services for child-serving organizations, and community-wide prevention education.

Our primary focus is on providing holistic and comprehensive care to children from birth to 11 years old and their families through therapy, education, support and connection to other community services.

REFUGE is also committed to increasing support and protection for families throughout the community and provides parenting classes, school-based services, community education, and professional support to enhance the entire community's capacity to support families dealing with abuse and violence.
